Hi All,

Asaf, Ari and I agreed a while ago that even though he is with Raw Mobility, when he deals with Mobivate and its customers, he would use a Mobivate email address.

While John set it up, it was never implemented.

For the rest of this week, please send to his usual email address and asaf.shamir@mobivate.com

From next week, please stop using his usual email address completely for all Mobivate matters.

Of course, if its Raw Mobility related (i.e. a new reseller for blender) use his usual email address.

Thanks

BGG
