## iSprint - P&L totals are wrong

### Description

@Aryeh Marks is reporting that the P&L figure is wrong in iSprint. The P&L has been recalculated but apparently that has not fixed the problem.

Hi @Aryeh Marks I've had a discussion with John on this and he has helped me resolve this problem. The figure on the P&L for April should now reflect much closer to your original calculated amount.

**For technical team reference:** Added a new transactional line in
